

Please do not remove or block the XM Satellite Radio traffic and weather channels. I do not have them here in Jacksonville but I would love to have it so that I do not have to keep changing back and forth from Satellite to AM radio just to find out what the problem with the roads are, besides the fact that I have to wait until the half hour to find anything out and by that time I have come across the incident.

PLEASE DO NOT REMOVE OR BLOCK THE SATELLITE TRAFFIC AND WEATHER!!!!!!!!!!!!!!!!!!!!
